BACTRON™

What you have here is a medicine
A medicine is not just an ordinary product It affects you, you and your health
It's powerfullly active using it can sometimes be dangerous
Keep it out of the reach of children

THIS IS THE VERY FIRST ANTIBIOTIC SOFTWARE

With its help, awaken the BACTRON within you. BACTRON is the viruses' worst enemy and has been knocking about your body since your birth. The BACTRON has already saved your life many times, but now you are very ill: Mac the macrophage, Steffie the staphylococcus, Dot, Spek and all the others are too strong for him. Guide BACTRON through the maze of your organs and arteries and together you will release all the healing enzymes trapped in the yellow cubes scattered through your body. Just remember that you're the first person in the world to guide a BACTRON.
IT'S VERY ADDICTIVE, IT COULD BECOME A DRUG: DO NOT EXCEED THE STATED DOSE.

Distributed by Activision (UK) Ltd.

Manufactured in the United Kingdom
